

Quality Management Systems Landscape – Implementation or Improvement

Zamann Pharma Support GmbH offers strategic consultancy, providing expert guidance on how to create or improve the landscape for the Quality Management System (QMS). This service focuses on strategies to create or optimize QMS processes and documentation, ensuring alignment with regulatory requirements and industry best practices

QMS GAP Analysis

Through a detailed evaluation of the existing QMS framework, processes, and documentation, we identify GAPs, deficiencies, and areas for improvement in QMS practices and compliance with regulatory standards.

Analyze findings to prioritize corrective actions and develop a roadmap for enhancing the QMS landscape in preparation for QMR activities.

Strategy Development

In collaboration with stakeholders, we define strategic objectives and goals for the QMS landscape and QMR activity. We develop strategies and action plans, establishing clear timelines, milestones, and responsibilities for implementing QMS improvements and driving continuous quality improvement initiatives.

Implementation Support

Our hands-on support and guidance will allow the implementation of the developed strategies and action plans for QMS enhancement, assisting in updating QMS documentation, procedures, and processes to align with the new strategic direction and regulatory requirements.

- Quality Consulting and Risk Management
- Qualification and Validation
- Personnel Qualification
- Customer-specific Provision of QMS
