

Knowledge Management – General GxP Training

Zamann Pharma Support provides workshops and training sessions to enhance client expertise regarding general GxP Quality aspects. Our programs incorporate best references (e.g.: FDA and EMA) to ensure comprehensive knowledge transfer. Through interactive workshops and targeted training modules, we empower clients to face regulatory requirements effectively and maintain high-quality standards

Comprehensive Workshop Design

We design customized workshops covering fundamental GxP Quality aspects, including Good Manufacturing Practices (GMP), Good Laboratory Practices (GLP), and Good Clinical Practices (GCP). Our workshops feature interactive sessions, case studies, and practical exercises to facilitate hands-on learning and skill development.

Customized Training Modules

Zamann develops tailored training modules addressing specific topics within general GxP Quality, such as documentation practices, quality risk management, and regulatory compliance.

Training materials incorporate real-world examples, regulatory case studies, and industry insights to provide practical guidance and enhance learning outcomes.

Expert Facilitation and Guidance

Our experienced trainers and facilitators deliver workshops and training sessions with expertise and professionalism.

Trainers offer practical insights, clarification on complex concepts, and guidance on applying GxP principles in everyday operations.

Participants receive personalized support, with opportunities for one-on-one consultations and follow-up sessions to address specific questions or concerns.
