

Quality Management System

Audit Readiness – GxP Audit Execution

We offer expert audit services both on-site and remotely to thoroughly assess clients' QMS activities. Our focus is on evaluating compliance with international references such as FDA and EMA guidelines. Through meticulous examination of all aspects of the QMS, we ensure alignment with regulatory standards and industry best practices, providing clients with valuable insights to enhance their Audit Readiness

Comprehensive Audit Planning

We develop detailed Audit Plans customized to the client's QMS and regulatory requirements, outlining the scope, objectives, and audit methodology.

Our team identifies key areas for review, including documentation, procedures, processes, and controls, ensuring thorough coverage of all relevant aspects.

On-Site and Remote Audits

Zamann conducts both on-site and remote audits, depending on client needs and circumstances, utilizing a combination of site visits, interviews, and document reviews.

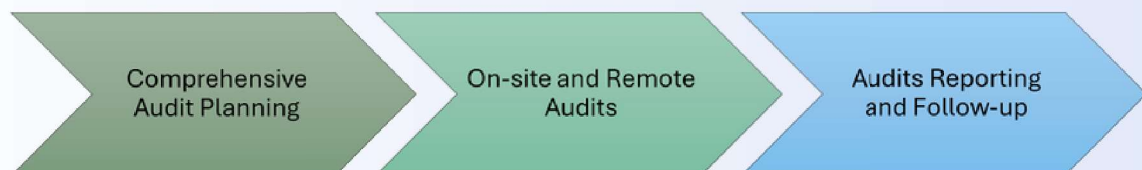

We employ a risk-based approach to prioritize audit activities, focusing on critical areas that pose the greatest compliance risk to the QMS.

Audit Reporting and Follow-Up

Following the audit, we provide comprehensive reports detailing findings, observations, and recommendations for corrective actions.

Our team works closely with clients to develop action plans to address identified deficiencies and improve QMS compliance.

Zamann offers ongoing support and guidance to ensure effective implementation of corrective actions and continuous improvement in Audit Readiness.

Reckitt | BIONTECH | ratiopharm | SANOFI | Boehringer Ingelheim | Biotest | Heraeus | Takeda
