

Quality Management System

Audit Readiness – CAPA Plan Management

Zamann offers expert management of Corrective and Preventive Actions (CAPA) designed to enhance clients' QMS Audit Readiness. Our service focuses on effectively implementing the created CAPA plans to address identified GAPS and improve compliance with requirements. Through planning and execution, we ensure the timely completion of CAPA activities and continuous improvement of the QMS Audit Readiness status

CAPA Plan Development

We collaborate with clients to develop comprehensive CAPA plans tailored to address identified deficiencies and improve audit readiness. Our team defines clear objectives, identifies root causes of non-conformities, and establishes corrective and preventive actions to address underlying issues.

Implementation Oversight

Zamann provides oversight and guidance throughout the implementation of CAPA plans, ensuring timely execution of corrective and preventive actions.

We monitor progress, track milestones, and address any challenges or obstacles encountered during the implementation process.

Effectiveness Monitoring

Following the completion of CAPA activities, we conduct effectiveness monitoring to evaluate the impact of implemented actions on QMS performance and audit readiness.

Our team assesses key performance indicators (KPIs) and measures improvements in compliance metrics to ensure sustained effectiveness of CAPA initiatives.

Zamann provides recommendations for further improvements and adjustments to CAPA plans based on effectiveness monitoring results, driving continuous enhancement of audit readiness status.
